EDUCATION

Bachelor of Science in Computer Science

Kean University

Expected 2027

Union, NJ

- **Relevant Coursework:** Data Structures, Object Oriented Analysis & Design, Computer Organization & Architecture, Database Management Systems, Discrete Structures, Applied Statistics, Matrix & Linear Algebra
- **Leadership & Honors:** Web Developer, WiCyS (Women in Cyber Security) | NSF IUSE Research Scholar | CRA UR2PhD-REU Fellow | Presenter, 2026 CRA UR2PhD Research Showcase, New Orleans | GMiS Research Posters Competition | Dean's List, Spring 2024 and Fall 2025

SKILLS

Languages: TypeScript, JavaScript, Java, Python, SQL, PHP, HTML/CSS

Frameworks & Libraries: React, Next.js, Node.js, REST APIs, Tailwind, Framer Motion, GSAP

Infrastructure & Databases: Cloudflare (Workers, D1, R2, Pages), Vercel (CI/CD), Supabase, PostgreSQL, MySQL, relational schema design, Apache/XAMPP

Tools & Workflow: Git/GitHub, Linux (Ubuntu), Claude Code, Codex, MySQL Workbench, Figma, LLM API integration

TECHNICAL EXPERIENCE

Independent Web Developer

Freelance Full-Stack Web Development

Jan. 2026 – Present

Sayreville, NJ

- Founded and run a freelance practice shipping production applications for **4 business clients across 4 live sites**; own the full lifecycle from requirements gathering with non-technical stakeholders through architecture, implementation, deployment, and ongoing maintenance.
- Build on **Next.js**, **TypeScript**, and **React** with **PostgreSQL** and **Supabase** behind API routes; ship serverless backends on **Cloudflare Workers** with **D1** and **R2**, integrate **Stripe** for payments, and deploy through **Vercel CI/CD**.
- **Live sites:** deafsharkcoffee.com (interactive menu, online ordering, staff CMS) | daysicecream.com (**4,000+ monthly visitors**) | trainingaio.com (booking platform, **delivered in 2 weeks**) | adzio.io (scroll animations and page transitions with **Framer Motion** and **GSAP**).

Data Visualization & Analytics Intern

Group Summer Scholars Research Program, Kean University

July 2026

Union, NJ

- **Lectured** daily and **mentored 5 high school students** under **Dr. Ching-yu Huang**, taking every student from zero experience to a published **database-driven website** and a research poster presented under my guidance; authored the curriculum, lesson slides, and troubleshooting guides.

Computer Science Tutor (Code Samurai)

Kean University

Jan. 2026 – Present

Union, NJ

- **Selected by CS faculty** for twice-weekly one-on-one sessions with **50+** undergraduates across data structures and algorithms; primarily tutor **Database Management Systems**, coaching students through relational design and writing efficient **SQL** queries.

RESEARCH PROJECTS

Java Execution Visualizer | CRA UR2PhD-REU Fellowship

Undergraduate Research Fellow, Advisor: Dr. Yan Ma | Competitively selected, \$8,000 funded, 400 hours

June 2026 – Present

Kean University

- Built and deployed a full-stack **Next.js** application that visualizes **Java** program execution, rendering variables, objects, the call stack, and the heap at every executed line; integrated a **JDI**-based tracer for **JDK 21** and built the entire application layer on top of it.
- Designed a **JavaParser AST** layer that collapses loops and method calls into single playback steps, integrated the **Google Gemini API** for step explanations, and built the participant harness now running an **IRB-approved pilot study**.

AI Debate Coach Evaluation | CRA UR2PhD Research Program

Undergraduate Researcher, Advisor: Dr. Yan Ma

Feb. 2026 – Apr. 2026

Kean University

- **Built the debate application and the full study pipeline** and fine-tuned the model configurations under test for a 10-week framework on **LLM sycophancy**, evaluated by **GPT-4-as-a-judge** alongside a **12-participant human study**.
- Found the fine-tuned model fabricated **100% of its cited sources** and that **only 1 of 12 participants challenged its credibility**; humans preferred the prompted model **3 to 1** while the automated judge rated the two comparably. Presented at the **2026 UR2PhD Research Showcase**.

Jobs vs. Wages | NSF IUSE Scholars Academy

NSF IUSE Research Scholar, Advisor: Dr. Pauline Wang | Competitively selected, \$1,400 funded, 10 weeks

May 2026 – Present

Kean University

- Built an interactive analytics dashboard in **PHP**, **JavaScript**, and **Google Charts** over **33,000 ZIP-code records** aggregated in **MySQL** into **52 U.S. states and territories**; found unemployment explains only **14%** of variation in household income while college attainment ($r = 0.79$) is far more predictive. Invited to the **GMiS Research Posters Competition**.
